

## HALTON FOUNDERS SOCIETY

---

The Halton Founders Society is named for long time supporter of The Ivey's mission, Dale F. Halton. Ms. Halton was one of the founding leaders of The Ivey and has provided financial support throughout the development and implementation of its not-for-profit status. The Founders Society recognizes cumulative giving at the following levels:

Live Oak..... \$1,000,000+

The Live Oak is the symbol of the timeless South. Towering over some of our most beautiful homes, the Live Oak represents the remarkable growth that we can achieve with the help of our largest donors.

Long Leaf Pine ..... \$500,000+

The Long Leaf Pine soars overhead and sends roots deep into the soil to tap into the water sources below. The Ivey is deeply rooted in the community, and these donors help us tap into the depths of our mission.

Southern Magnolia..... \$250,000+

The Southern Magnolia's beautiful blossoms are often used to describe the powerful women who lead families through generations of cultural change. The Ivey draws strength from donors at this level, our own Steel Magnolias, and looks to the future.

Dogwood ..... \$100,000+

The State Flower of North Carolina, the Dogwood can be found in many landscapes from forests to backyards. Donors at this level allow The Ivey to spread our message and our mission across the community and reach many audiences with the help they need.

River Birch ..... \$50,000+

The River Birch has the distinction of being one of the most popular trees to plant in urban areas. This hearty tree lives for many years in tough environments and represents the future stability and longevity that we are building at The Ivey.

Fraser Fir ..... \$25,000+

The centerpiece of many celebrations during the winter season, the Fraser Fir dots the many hillsides from the foothills to the mountains. Donors at this level help us celebrate successes and take advantage of new opportunities to serve.
